

1) In terms of animals that are NOT PETS, do you think there are more mammals or birds in NYC?

Choose different shapes/symbols to represent each answer choice.

Mammals

Birds

2) How many wild animals do you recall seeing in the past day? (*wild = not someone's pet)

Choose different densities to represent each answer choice.

None

1-5

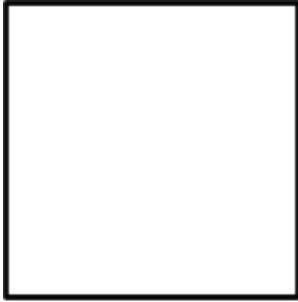

6-10

11 or more

3) Has warm/hot weather ever made it so that you could not do something that you wanted?

Choose different colors to represent each answer choice.

No

Yes

4) Think about animals that have to move to a new habitat, such as the animals we observed in the recent map movement activity. How easy or difficult do you think it is for animals to move their habitat?

Choose different values to represent each answer choice.

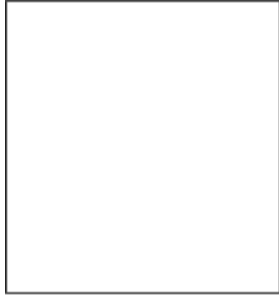

Easy

Difficult

5) In which environment in the world do you think there are the most animals?

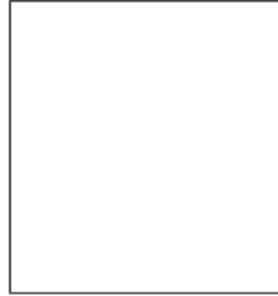

Choose different shapes to represent each answer choice.

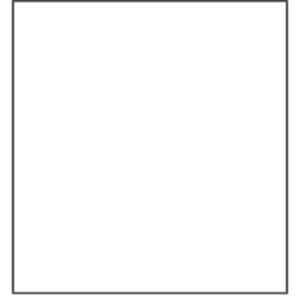

Forests

The water

**Soil (the
ground
or in a
pot)**

Buildings
