# Observation & Discussion with Data Reflection

As a class, we looked at the map below together. In this assignment you'll get a chance to reflect on what you learned from this data.

Surface Temperature Departure July 2023

Surface Temperature Departure (°C)

-6   0   6

In 1–2 complete sentences, describe what you think this data set is trying to show:
What do you think the word "departure" means in the legend?
What do the different colors represent?
What do you think it means if a region on the map is blue?
What do you think it means if a region on the map is red?
What do you think it means if a region on the map is white?

List three important or interesting things you notice after studying this data set.
    1.
 	
    2.
 	
    3.

What does this data set make you wonder about?
